What do sleep, diet and robotics have to do with autism?
You’ll never know, unless you join us.

Autism Speaks presents an exciting evening of listening and learning about autism and the new Boone Fetter Clinic, a diagnostic, clinical and research center within the new Institute for the Developing Mind at Childrens Hospital Los Angeles.

RSVP by calling 323-549-0500 Ext. 765 or email: losangeles@autismspeaks.org

Parents and Professionals are welcome. Seating is limited. Validated parking is available in the underground lot from the Sunset Blvd. main entrance. Cross the street to the Saban Institute.

PRESENTERS:
Clara Lajonchere, Ph.D.
Vice President of Clinical Programs for Autism Speaks
Maja Matarić, Ph.D.
Senior Associate Dean for Research at the USC Viterbi School of Engineering
Michele Kipke, Ph.D.
Director, Diagnostic, Clinical and Research Center, Institute for the Developing Mind

TOPICS:
