The focus of the June 8th meeting will be to discuss with the Research Advisory Committee (RAC) our plans to conduct an intervention study in LAUP preschools to promote practices that lead to better outcomes for all children—especially English Language Learners.

The Research Advisory Committee (RAC) is comprised of local and national research experts who provide technical input, ideas and advice to First 5 LA and LAUP on early childhood research issues. The RAC meetings are open to the public but space is limited so RSVPs are required.

Space is very limited. You must RSVP to attend. Please contact Maria Altamirano at maltamirano@first5la.org by June 2, 2010.
