II. BACKGROUND

First 5 LA — “Champions for Our Children”

In 1998, California voters passed Proposition 10, which levied a 50-cent per pack tax on all tobacco products. The resulting tax revenues were earmarked for the creation of a comprehensive system of information and services to advance early childhood development and school readiness within each county in California. In Los Angeles County, the First 5 LA Commission was formed as a public entity to develop and oversee various early childhood initiatives and to manage the funding from Proposition 10. Since 1998, First 5 LA has invested more than $1 billion to support programs, initiatives, research, partnerships, public education and other endeavors in all four of its goal areas:

- Children are born healthy
- Children maintain a healthy weight
- Children are safe from abuse and neglect
- Children are ready for kindergarten

The First 5 LA FY 2009-2015 Strategic Plan

In 2009, First 5 LA’s Board of Commissioners adopted a strategic plan to guide its investments through June 2015. The plan, Strengthening Families and Communities in L.A. County, marked a significant evolution in First 5 LA’s approach to grantmaking. In addition to a countywide approach that focuses on policy change, public education, workforce development and other strategies, the strategic plan also commits a sizeable portion of funds to improve the well-being of children in specific geographic communities.

The Commission selected 14 Best Start communities based on lessons learned from First 5 LA’s first decade and research, which shows the influential role of safe and supportive neighborhoods in a young child’s quality of life.

This combined place-based and countywide approach is intended to concentrate First 5 LA’s limited resources in areas of high need and to support the sustainability of those efforts over time. The strategic plan will allow First 5 LA to continue focusing on strengthening families while deepening our commitment to fostering a community’s ability to create and sustain safe and nurturing places for children to grow.

Figure 1: First 5 LA Prioritized Pathway

The strategic plan identified a pathway for First 5 LA investments that leads to our desired outcomes for children, families and communities in our four goal areas.
The Place-Based Approach, Best Start
First 5 LA’s place-based approach focuses on the places where families live — combining strategies to strengthen families with those that build community capacity to create and sustain thriving and healthy environments for all children. The research and promising practices emerging from decades of place-based efforts make a strong case for First 5 LA’s shifting a significant amount of resources to this funding strategy. The place-based approach allows First 5 LA to focus on families most in need, creating a seamless pipeline to effectively serve families along the continuum of a child’s development. This approach also creates unique partnerships with families, community residents and other funders, resulting in a better measure of our impact.

Parents, civic and business leaders, members of the clergy, representatives from community-based organizations and others are working together to develop partnerships within each of the 14 communities. The expectation is that each community partnership will submit proposals to the First 5 LA commissioners for future investments that target community-identified priorities that will help advance Best Start’s primary goals that children in each community grow up safe, healthy and ready to learn.

Countywide Approach
The strategic plan recognizes the critical role of strong, coordinated and responsive systems in supporting families and improving outcomes for children prenatal through age 5. These systems include the actual structures through which health and human services are provided in L.A. County, as well as less formalized systems. By focusing on countywide systems improvement and change, countywide investments can have an impact beyond the children in the 14 Best Start communities. At the same time, this approach will help improve the sustainability of the place-based approach and outcomes. First 5 LA understands that enduring systems changes are most successful when they are informed by — and grow out of — community-based experience and concrete evidence regarding models that strengthen families and improve outcomes for children, such as those we will be supporting in the Best Start communities.

The countywide approach is a comprehensive effort through a variety of programs, strategies and initiatives. The strategic plan incorporates seven specific countywide strategies, including public policy, public education, resource mobilization, workforce development, data systems integration and health access. In addition, First 5 LA is supporting an array of countywide investments in areas such as universal screening and assessment of newborns, early care and education workforce development, nutrition and physical activity programs for families and in child care facilities, and parental support projects. In addition, among other strategies, First 5 LA continues to strive for increased access to health care and insurance for pregnant women, children and their families; provide telephonic or online and printed resource directories for families and support and enhance the impact of our investments with effective, strategic partnerships and leveraging social and financial capital via our Community Investments Department.

A. First 5 LA FY 2009-2015 Revised Accountability Framework

First 5 LA’s 2009-2015 Strategic Plan represents a comprehensive and far-reaching approach to achieving our goal of enhancing the lives of expectant parents, children prenatal through five, and the families of those young children. In its first twelve years of working in L.A. County, First 5 LA has funded a wide array of direct services programs and has supported efforts to build the capacity of our partners. Our intent has been not only to develop, implement and improve grant making programs, but also to sustain the positive changes our grantees are making in the lives of the children and families they serve.

First 5 LA’s approach to Accountability and Learning must be similarly thorough, far-reaching and comprehensive. We must have the data and analytical tools in place to know not only what works, but why it works and how it can be improved upon. The Revised Accountability and Learning Framework reflects our approach to evaluating the effectiveness of First 5 LA’s work and our objective of providing the most thorough, useful and relevant information to our many internal and external stakeholders.
Our work is structured around the following four broad categories:

I. Program evaluations  
II. Data and research projects  
III. Dissemination of findings  
IV. Learning and improvement

The Research and Evaluation Department is responsible for carrying out this work. In addition, the Research and Evaluation department has a number of important and ongoing goals, including the development of data sources, building the evaluation capacity of our colleagues and partners, and promoting and highlighting the work of the Commission. Central to these goals are the following working objectives:

- **Evaluate**: design and conduct appropriately rigorous evaluations of all First 5 LA programs, investments and strategies.
- **Share**: provide high quality and timely findings to commissioners, grantees, staff and external audiences. Promote the use of findings for program planning and improvement, policy development and acquisition of content knowledge.
- **Build Capacity**: build the capacity of First 5 LA staff, commissioners, grantees, and research partners to understand, generate, and effectively use data.
- **Develop Data**: support and improve upon existing data infrastructures and data sources. Promote data sharing, and development of data sharing policies for population-based and administrative data relevant to the 0-5 population.
- **Develop Expertise**: conduct original research on commission relevant issues and regularly consult with experts in the field. Cultivate our own expertise on research findings and outcomes relevant to First 5 LA investments and the 0-5 population in L.A. County.

### III. PROJECT OVERVIEW

**Research and Evaluation Consultant Pool RFQ**

The First 5 LA Research and Evaluation (R&E) department is seeking applicants to be included in a pool of approved consultants to support R&E’s work. This support may include a range of diverse tasks, from facilitating meetings and translation services, to supporting research and evaluation design and implementation tasks. To that end, we are seeking a diverse set of skills to be represented in the pool reflective of content knowledge, skills in data collection and analysis, dissemination and logistical support services that enhance research and evaluation activities.

If an applicant selects fewer than five topic areas they should rank them in a similar fashion.

**Applicants who select more than five areas of expertise will be subject to disqualification. Applicants who choose to select fewer than five areas of expertise will not be disadvantaged in the review process.**

Activities funded under this proposal must be new or enhancements to existing activities.

6. The award of a contract by the COMMISSION to an individual/agency/organization that proposes to use sub contractors for the performance of work under the contract resulting from this application process shall not be interpreted to limit the COMMISSION’s right to approve subcontractors, assemble teams and/or assign leads. Each applicant will be evaluated independently for added value to the overall team. A copy of executed subcontract(s) related to Program funding must be provided to the COMMISSION.

7. The selected Contractor will be required to sign the contract at least two (2) weeks prior to the intended start date of the contract, as outlined in Terms of Contract/Term of Grant section, to assure the timely completion of the signature process by all parties. If the contract is not signed prior to the intended start date, the commencement of any activities under the Exhibit A – Scope of Work will not begin until the contract execution date (the date all parties have signed the contract) and Contractor will not be eligible to obtain reimbursement for any costs incurred prior to the contract execution date, unless otherwise approved in writing by the COMMISSION. If this Contract is not signed within the thirty-day (30) period from the intended start date, the COMMISSION has the right to withdraw the contract award. The COMMISSION reserves the right to revise the effective date prior to final execution of the contract.

The contractor shall not be authorized to deliver or commence performance of services as described in this RFQ until final execution of the contract (contract must be signed by both parties). Final execution of the contract is contingent on First 5 LA’s Board approval of the negotiated scope of work and budget. Any performance of services commenced prior to obtaining all written approvals by First 5 LA shall be considered voluntary.

8. Unless otherwise submitted during the application process, the selected Contractor will be required to submit the required documentation listed on the Contractor Checklist,
which includes, but not limited to, the following documents before the Contract can be fully executed:

- Agency Involvement in Litigation and/or Contract Compliance Difficulties Form
- By-laws (if applicable)
- Articles of Incorporation (if applicable)
- Board of Directors or List of Partners (as applicable)
- Signature Authorization Form

- Certificates of Insurance for all insurance requirements outlined in the contract.

9. Per the COMMISSION’s Policy and Guidelines for Hiring Consultants, the total composite rate, which includes labor and other costs, for a Consultant may not exceed $150 an hour, depending on the type of expertise. A blended rate is allowable. For example, for a contract totaling $150,000, a consultant may bill 500 hours for Consultant A at $200/hour, and 500 hours for Consultant B at $100/hour, with a total composite rate of $150/hour (1,000 total hours divided by $150,000 in billable hours = $150/hour).

10. The selected contractor/s will be required to adhere to all contractual obligations as outlined in this document, including the First 5 LA Contract (See Appendix D: Sample Contract). The selected applicant shall be expected to execute the contract without substantive alteration. If applicant cannot accept the terms of the contract without substantive alterations, the applicant should refrain from applying. It is imperative that all applicants review the contract language in detail and fully understand contractual obligations should they be selected.

IV. APPEALS POLICY

First 5 LA reserves the right, without prejudice, to reject any or all submitted applications. An Appeal shall be permitted only on the grounds that the decision violated applicable law, First 5 LA policies and procedures, or the terms of the bid, RFP or RFQ. Appeals challenging First 5 LA’s decision on the merits or qualifications of bidders or proposers or the scoring of proposals shall not be permitted.
