Side Mixer

Accessible **Temperature Adjustment**

Temperature Adjustment Side Mixer

An easy-to-install, easy-to-adjust temperature control solution for touchless and manual faucets.

Our temperature adjustment side mixer provides a new option for user adjustable temperature control for our HyTronic® single supply and manual single supply faucets. The side mixer installs in just minutes, and with three simple connections you can add a durable, OSHPD compliant, ADA compliant temperature adjustment solution to our faucets.

The side mixer can be installed on existing Chicago Faucets products or added as an accessory to new installations.

Vandal Resistance

Concealed hex head handle screw for vandal resistance.

Total Control

Ceramic cartridge supports greater and more accurate water adjustment from 100% cold to 100% hot.

Installation Options

Available as single hole or with 4" or 8" cover plates to meet all applications.

Easy-to-use

4" wristblade handle provides easy temperature adjustment and meets ADA and California OSHPD requirements.

Helps Prevent Scalding

Easy-to-adjust hot water limit stop to help prevent scalding.

Durable

Solid brass construction and polished chrome finish for durable performance and long life.
